EDUCATION FOR TOMORROW'S JOBS

<https://erpcollege.ca/>

HEALTHCARE

PHARMACY ASSISTANT

This program prepares students for community, retail, and hospital work environment. Pharmacy Assistants require theoretical and hands-on skills. This program is designed to provide such essential skills and thoroughly prepare students for the workplace. Students are equipped with skills of inventory maintenance, record keeping, latest trends in pharmacy equipment, mathematical skills related to pharmacy, and prescriptions.

29 weeks Diploma | Practicum Included

MASSAGE THERAPY

This program aims to facilitate students' ability to assess and provide treatment of chronic diseases, injuries, stress, and other medical conditions through a variety of massage techniques. The students are guided on how to be entrepreneurs and to run their businesses, either in the form of private massage clinics or running mobile massage services. The graduates of this diploma are able to become Registered Massage Therapists (RMT) through provincial associations.

95 Weeks Diploma | Practicum Included

MEDICAL OFFICE ASSISTANT & UNIT CLERK

This program is designed to provide the students with the relevant knowledge about healthcare and the medical office procedures and to prepare them to begin working in the healthcare industry. Successful graduates are proficient in medical office procedures, health care fundamentals, medical terminology, chart management functions of patient records, and basic billing duties with the current and emerging computer and software skills.

42 weeks Diploma | Practicum Included

SAP FINANCIAL ACCOUNTING & PAYROLL SYSTEMS

This program prepares the students in three major facets of the financial system in Canada. Students are equipped with knowledge and skills in accounting framework, concepts, and principles. The program also focuses on preparing the students to manage compliance requirements for preparing the company's annual payroll cycle. Students have a hands-on training on using different accounting software for small-sized business (Quickbooks and SAGE 50) to multi-national companies (SAP). Successful graduates of this program get an edge among others as they are acquainted with the SAP System in preparing reports, record, and analyze transactions with financial data.

56 Weeks Diploma | Practicum Included

OFFICE ADMINISTRATION

The program is designed to provide the students with the relevant administrative and technological skills to meet the demands of the corporate work environment. It helps students develop and improve on skills such as verbal and written communication in an office setting, word processing, document preparation, contemporary office procedures, and current software applications.

44 Weeks Diploma | Practicum Included

DATA WAREHOUSING & BIG DATA

This program focuses on the job-oriented technical skills necessary to consolidate, cleanse, and standardize enterprise data into SAP HANA data warehouse systems. The students learn modeling techniques and how to populate these data models using Extract, Transform, and Load (ELT) Technologies. Successful graduates are equipped with the knowledge and skills in software integration by using Java language and other technologies; giving a quick introduction to Big Data, MapReduce algorithm, and Hadoop Distributed File System.

50 Weeks Certificate

DIGITAL AND SOCIAL MEDIA MARKETING

This program is designed to equip students with the fundamental skills needed to assess a company's marketing needs and remain competitive by using hands-on experience on how to plan, execute, monitor, control, and create innovative online marketing campaigns that convert visitors into loyal customers. Successful graduates are skilled in examining web analytics, digital branding, Word Press, blogging, online advertising, social media, SEO, Google Ads (PPC), and more.

52 Weeks Diploma | Practicum Included

HOSPITALITY & TOURISM MANAGEMENT

This program helps students understand the concepts and techniques related to hotel and restaurant businesses including front and back-office operations. Students learn to provide exceptional guest service, industry-standard software applications, and management skills. The students gain fundamental knowledge of the hospitality industry as well as marketing, financial analysis, and accounting.

64 Weeks Diploma | Practicum Included

BUSINESS ANALYSIS FOR BUSINESS INTELLIGENCE

This program accelerates the knowledge and skills of the students who have a background in business and IT. This course focuses on the three pillars of Business Intelligence, people, technology, and data. The students are trained to use RDBMS and SAP Business Intelligence tools to develop their understanding of corporate data from the Online Analytical Processing (OLAP) environment. Successful graduates are well-equipped with the best practice techniques on data management and data mining.

50 Weeks Certificate

BUSINESS & IT
